

# 154L WINE CABINET

HUSDSC54MBZY

MODEL HUSDSC54MBZY

Dimensions 870mm (H) x 595mm (W) x 595 (D)

Nett Capacity 154 litres Temperature Range 2 to 10°C

Cooling Zones1Shelves3RefrigerantR600a

Humidity Range 50% - 80% (IEC international standards)

**FEATURES** 

Matte Black Frame

Digital Temperature Display

Anti-Vibration Compressor Feet

LED Internal Light

Triple Glazed Glass Doors

3 Year Warranty

Arisit Pty Limited (Australia) 40-44 Mark Anthony Drive, Dandenong South, VIC 3175

## 154L WINE CABINET

HUSDSC54MBZY

### THE KEYS TO PRESERVING THE NATURAL TASTE OF WINE

#### **TEMPERATURE**

Although varying temperatures are used for serving, all wines should be stored between 12°C - 14°C. Storing your wine outside of these temperatures can spoil the natural taste.

#### **HUMIDITY**

Storing wine at lower than 50% humidity can lead to the cork drying out and shrinking. This can lead to air entering inside of the wine bottle leading to oxidation and odours.

#### **LIGHTING**

High amounts of light, particularly damaging UV rays can effect the natural colour and tannins within your wine. This can lead to damaging hydrogen sulphide compounds developing within the wine.

#### **VIBRATIONS**

Slight vibrations can accelerate the natural ageing process of wines and lead to a deterioration in flavour and an overall lack of quality.

#### **AIRFLOW**

A lack of airflow within a wine cabinet can lead to poor ventilation, stale air and sometimes mould. Active carbon filters help to eliminate odours that can develop within the wine cabinet.
